SVETLOZAR ANTONOV

Junior Web Developer | Internship or Full-Time

+359 898 841 363 anto1nov1@gmail.com https://rb.gy/r7pgdj https://github.com/Antonov-S

SUMMARY

As a developer transitioning from the financial sector, I bring a strong analytical mindset and a structured approach to building modern web applications. I have hands-on experience developing full-stack projects with Next.js, React, and TypeScript, focusing on maintainability, performance, and real-world use cases. My background in finance strengthens my ability to work with complex logic, data-driven systems, and user-focused solutions.

Recently, I have built several production-ready applications, including Echo, an AI-powered customer support platform leveraging embeddings and RAG to build a smart knowledge base and enable automated or human-assisted resolution; New Tube, a YouTube-style video platform with advanced data-fetching patterns using tRPC; and Sprout and Scribble, a full-featured e-commerce application with Stripe integration.

PROJECTS

Echo

https://echo-ai-support-web-omega.vercel.app

AI-powered customer support platform with real-time chat and voice support, leveraging embeddings and RAG to build a smart knowledge base and enable automated or human-assisted resolution. Includes an operator dashboard, embeddable widget, and integrations with AI models, built with Next.js, React, and modern cloud tools.

New Tube

https://new-tube-mu.vercel.app

YouTube-style video platform built with Next.js 15 and React 19, using tRPC with prefetching in server components and leveraging Suspense in client components for efficient data flow. Features video processing, background jobs, and AI-powered capabilities including transcription and content generation.

Sprout and Scribble

https://www.sproutnexty.store

Full-stack e-commerce application built with Next.js 14, PostgreSQL, and Drizzle ORM, featuring Stripe integration for payments. Implements AI-powered search with Algolia, modern state management with Zustand, and polished UI/UX using shadcn/ui and Framer Motion.

Pokebase

https://pokebase-task-3-zing7.vercel.app

Pokémon database application built using PokéAPI, developed as part of the Zing7 Ltd summer training program, focused on efficient data fetching and processing. Implements search with autocomplete, type-based filtering, and detailed data views, emphasizing backend logic and data handling over UI design.

LinkedIn Prototype

https://tinyurl.com/mwetsp72

LinkedIn-style prototype built with Next.js 14, PostgreSQL, and Drizzle ORM, featuring authentication with NextAuth and efficient data handling with caching and advanced queries. Implements rich text editing, data visualization, and a basic recommendation system, focusing on rapid prototyping and core functionality.

TECH EXPERIENCE

JavaScript | Typescript | React / Next.js | Drizzle / Prisma / Convex | Tailwind CSS | Shadcn/ui | Zustand / Redux / Jotai | PostgreSQL / Mongo DB / SQLite | Git

PROJECTS

Petsoft

https://petsoft-app-eta.vercel.app

The PetSoft project is a full-stack app built with Next.js 13, TypeScript, and Tailwind. It showcases advanced features like server-side pagination, dynamic rendering, and state management with Zustand.

Microsoft To Do Prototype

https://github.com/Antonov-S/to-do-prototype

Full-stack prototype inspired by Microsoft To Do, built with Next.js, TailwindCSS, Drizzle ORM, and shadcn/ui. It features simple authentication, a dynamic sidebar, grid layouts, dark mode, and basic task management functionalities. The focus is on rapid prototyping, providing only essential features, with minimal attention to styles or advanced polish.

Evento

https://evento-app-ten.vercel.app

Dummy web application, built with Next.js 13, TypeScript, Prisma, and Tailwind, it features city-specific event searches, sorting by date, pagination, and easy sharing via open graph images for a seamless user experience.

Learning Management Platform

https://learning-management-app-f6kp.vercel.app

Full-stack Udemy clone built with Next.js 13, React, Prisma, and Tailwind. It features course browsing and filtering, Stripe-powered purchases, progress tracking, and a student dashboard. Teachers can create and manage courses with drag-and-drop chapter reordering, rich text editing, and video uploads via Mux.
Authentication is handled by Clerk for a seamless user experience.

My portfolio website

https://rb.gy/oo8s9q

Built with React & Next.js, TypeScript, Tailwind CSS, Framer Motion, React & Resend, Vercel hosting.

Rmt Dev

https://velvety-sunflower-91c517.netlify.app

Dummy job board for developer jobs. It has features like data caching(searches, bookmarks...), persisting data in local Storage, filtering, sorting and pagination.

Ignite

https://capable-chebakia-5d3b72.netlify.app

Games library app, provides the user the ability to search from thousands of current and upcoming games.

Waves Music

https://earnest-souffle-0e7c4a.netlify.app

A simple music app with play/stop, next, previous track, and library functionality, featuring interesting styling.

Corp Comment

https://joyful-biscuit-9a382f.netlify.app

Dummy public feedback tool, users can give public feedback to companies.

Capture Portfolio

https://meek-kitten-2638d2.netlify.app

A dummy portfolio app featuring dynamic content and interesting styles.

Word Analytics

https://main--glittering-capybara-b697a7.netlify.app

Copy and paste your text into the online editor to see the word count, character count, and social media post limits. Inspired by WordCounter.net

EXPERIENCE

Trainee - Web Development (summer training)

Zing7 ltd — 04/2024 - 09/2024

- Hands-on training program focused on web development. It offers tailored learning tracks for beginners and advanced participants, covering topics like Tailwind CSS, Next.js, UI/UX, and dynamic applications using APIs.
- Participants work in groups, receive personalized feedback on projects, and gain practical skills aligned with industry standards. The academy's unique, practice-oriented approach sets it apart from traditional learning programs.

Intern - Manual QA

ePing SPS&TBT Platform — 11/2019 - 01/2020

- Finding misconceptions in the specification, broken functionalities, user experience problems, etc.
- Performed Functional and Black Box testing.
- Crate enough test cases to test the functionality based on the Software Requirements Specification.

Expert with control functions / Reviser

Gresia 2 Ltd — 12/2015 - 12/2018

- Conduct periodic revisions of goods in the company's stores and warehouse, analyze the results, and prepare a comprehensive report on their overall status.
- Manage a small team of auditors, ensuring efficient operations and accurate assessments.
- Track and verify unpaid stock documents from contractors, stores, clients, and other stakeholders.

Chief expert

Sofia Branch of the National Health Insurance Fund

06/2009 - 10/2011

- Processed medical, statistical, and financial information to determine regulatory standards and allocate funds for their implementation.
- Contributed to the preparation of interim and annual reports for the Sofia Branch of the National Health Insurance Fund.

ACADEMIC

Financial Management

Dimitar A. Tsenov Academy of Economics — Svishtov, Bulgaria

Master's Degree

Business Administration

University of National and World Economy — Sofia, Bulgaria
